Some of our committee think the one-third of it should be at once given to the widow, & the rest invested for the children. Others incline to invest the whole, & give the widow the use during widowhood. The Law gives her one-third of his personal property absolutely.

As to the investment for the children, how will it be done by their legal guardian, or by trustees appointed by the Committee. If the latter, is there any objection to Sewall, Stanton & F. Jackson for trustees?

Have you written to those who pledged money to Mr. Sanford of Medway? Yours truly

J. W. Loguen

Can you not go to London?

J. Leavitt

Boston, June 12/46

Dear Brother —

Rec'd June 19th

The Treasurer of our Committee is Saml E. Brackett Esq., 195 Washington Street, to whom moneys should be sent. You give no intimation of the amount at your disposal. Some time since, you wrote that you — Cleveland and endeavoured to secure for Irving's family the sums contributed, pledged for his release. Have you written to those persons? Have we here any thing to do about those subscriptions? Please write to Mr. Sewall as it is possible I may go to Chicago next week.

What should be done with the funds, besides erecting the monument?
